The online gaming industry is one of the fastest growing segments of internet commerce today, in fact, in 2006 players wagered over Twelve Billion Dollars at online casinos and that figure is expected to double in 10 years!

As a webmaster you have an opportunity to participate in this exciting new era by partnering with the leading casino operators. Sportsbetting Affiliate Programs allow you to cash in on the popularity of online gaming with little or no investment and reap enormous rewards.

There are currently over 2000 casino and sportsbook operators online with more being launched every day. Every one of those operators needs one thing to succeed, Visitors! They are willing to pay handsomely for new players and that's where we come in as webmasters.

When you join a sportsbetting affiliate program you are supplied banners, text links and live games that allow your visitors to go to a casino and sign up as a new player. Each visitor is carefully tracked through cgi scripts and cookies and labeled as a player you referred. You then earn a percentage of their net game play.

Each program is different, but you generally earn 20 - 50% of the profits off that player for life! The average profit on a single player is &#036;64.00 per month, so the revenue Casino Affiliate Programs generate can be staggering. Since you earn money on each player for life you are building a monthly income that can quickly add up to thousands of dollars each month per program.

At Casino Affiliate Programs we review and rate the hundreds of partner programs available. Not all of them are equal and not every operator is reputable, so we make every attempt to weed out the bad ones and present you with the best opportunities for profit. Please visit our site often and keep up to date on the latest Sportsbetting Affiliate Programs.
